HEALTHCARE SKILLS INTERNATIONAL QUALIFICATION SYLLABUS

Syllabus

Theatre Access Qualification

Description

This unit develops the knowledge and skills which hospital management expect of medical device industry personnel entering, assisting and providing verbal/technical input within clinical areas.

Assessment Criteria

As a qualification there are three key elements to be met:

Technical Knowledge
Clinical Skill
Reflective Practice

This unit will be assessed through three different activities:

- Candidates will complete a comprehensive written assessment which will include the principles of Safe Practice within the relevant clinical areas
- Candidates will complete a multiple-choice questionnaire covering all aspects of the taught Hospital/Theatre Skills unit and its pre-course reading
- Candidates will be expected to demonstrate personal competencies in an actual hospital clinical area under simulated conditions

Delivery

The programme will be delivered through formal presentations; problem based learning and practical clinical sessions in a relevant clinical setting; by a qualified faculty with defining knowledge and experience.

Qualifications

Issued by Government Awarding Body, regulated by EduQual.

Those who have completed our courses include:

- Practicing medics (surgeons, physicians, all medical practitioners)
- Pharmacists
- Nurses
- Medical Device company representatives
- Pharmaceutical company representatives
- Regulatory personnel in companies that manufacture, sell or place medical devices on the market

The outcomes for those who successfully complete them are:

- An understanding of what constitutes best practice and key skills in a clinical environment
- A firm grasp of legal obligations in hospital and clinical settings
- An ability to assimilate the expectations of members of the clinical team
- The acquisition of skills that will help to improve training approaches and skills to maximise clinical output
- An understanding of detailed regulatory requirements and implications of medical device legislation
- The potential to develop their skill sets to a level of medical device formal/corporate sign-off
- An understanding of obligations relating to the sale of and correct patient use of medical devices and required reporting/record-taking

“Healthcare Skills International ensure that the highest ethical, legal and teaching standards are maintained through the delivery of our professional qualification programmes”

Clinical Lead for Healthcare Skills International

All those who take part in our courses are able to legitimately demonstrate a level of competence that meets all relevant professional requirements reflecting the national qualifications framework.

Healthcare Skills provide the following qualifications framework that is defined by national standards and meets all relevant requirements and registration systems:

- Post-graduate Diploma in Computer Assisted Surgery
- Post-graduate Diploma in Clinical Education
- Orthopaedic Healthcare Industry Professional Diploma
- Media engagement for healthcare professionals – Certificate and Diploma
- Suite of medical device regulatory and medical device commercial qualifications – Certificate and Diploma
- Advanced Professional Award in Hospital Procurement
- Hospital Access/Theatre (OR) Skills – Professional Award
- Pharmaceutical Ethics – Certificate and Diploma

HOW DO HEALTHCARE SKILLS INTERNATIONAL WORK WITH EDUQUAL?

Healthcare Skills International is an approved audited education centre, delivering a range of professional, competence-based qualifications awarded by eduQual.

Why do Healthcare Skills work with eduQual?

1. Professional Healthcare Skills qualifications developed with employers.

eduQual work with the relevant sector skills bodies and industry professionals to ensure that the qualifications they offer meet the needs of employers and provide the latest industry thinking.

2. Guaranteed and reliable quality

eduQual is underpinned by a commitment to meeting the highest standards of quality. Qualifications are developed in line with the standards specified on the Qualifications and Credit framework (QCF) produced by the UK's national qualifications regulator ofqual.

3. Delivering 'fit for purpose' ready certified professionals.

Completing an eduQual professional qualification with Healthcare Skills means you are ready to enter the workplace. Each candidate is certified by eduQual as having demonstrated that they have the skills they need to operate effectively in their chosen industry.

With eduQual qualifications delivered by Healthcare Skills, corporations' representatives can provide externally validated evidence of competence to demonstrate, teach, support and promote their products.

eduQual is a UK awarding organisation which develops and accredits qualifications designed to meet the needs of learners and industry sectors and to provide individuals with opportunities for personal and professional development.

eduQual qualifications are based on the National Qualification Framework which consists of Awards, Certificates and Diplomas following levels set by ofqual, the regulator for qualifications in England.

“Working with eduQual has been a great success. Through eduQual, Healthcare Skills are able to deliver professional qualifications based on professional standards. There are many training courses available for business professionals; the advantage of eduQual courses is that learners achieve professional qualifications”

Diane Irvine, CEO, Healthcare Skills

Qualification Level	Award 10-120 Hours	Certificate 130 - 360 Hours	Diploma 370 - 900 Hours	Extended Diploma →900 Hours	Level Descriptors
7	Postgraduate Award	Postgraduate Certificate	Postgraduate Diploma	Extended Postgraduate Diploma	Achievement at level 7 reflects the ability to reformulate and use relevant understanding, methodologies and approaches to address problematic situations that involve many interacting factors. It includes taking responsibility for planning and developing courses of action that initiate or underpin substantial change or development, as well as exercising broad autonomy and judgment. It also reflects an understanding of relevant theoretical and methodological perspectives, and how they affect their area of study or work.
6	Graduate Award	Graduate Certificate	Graduate Diploma	Extended Graduate Diploma	Achievement at level 6 reflect the ability to refine and use relevant understanding, methods and skills to address complex problems that have limited definition. It includes taking responsibility for planning and developing courses of action that are able to underpin substantial change or development as well as exercising broad autonomy and judgment. It also reflects an understanding of different perspectives, approaches or schools of thought and the theories that underpin them.
5	Advanced Professional Award	Advanced Professional Certificate	Advanced Professional Diploma	Extended Advanced Professional Diploma	Achievement at level 5 reflects the ability to identify and use relevant understanding, methods and skills to address broadly-defined, complex problems. It includes taking responsibility for planning and developing courses of action as well as exercising autonomy and judgment within broad parameters. It also reflects understanding of different perspectives, approaches or schools of thought and the reasoning behind them.
4	Professional Award	Professional Certificate	Professional Diploma	Extended Professional Diploma	Achievement at level 4 reflects the ability to identify and use relevant understanding, methods and skills to address problems that are well defined but complex and non-routine. It includes taking responsibility for overall courses of action as well as exercising autonomy and judgment within fairly broad parameters. It also reflects understanding of different perspectives or approaches within an area of study or work.
3	Advanced Award	Advanced Certificate	Advanced Diploma	Extended Advanced Diploma	Achievement at level 3 reflects that ability to identify and use relevant understanding, methods and skills to complete tasks and address problems that, while well defined, have a measure of complexity. It includes taking responsibility for initiating and completing tasks and procedures as well as exercising autonomy and judgment within limited parameters. It also reflects awareness of different perspectives or approaches within an area of study or work.
2	Intermediate Award	Intermediate Certificate	Intermediate Diploma	Extended Intermediate Diploma	Achievement at level 2 reflects the ability to select and use relevant knowledge ideas, skills and procedures to complete well-defined tasks and address straightforward problems. It includes taking responsibility for completing tasks and procedures and exercising autonomy and judgment subject to overall direction or guidance.
1	Foundation Award	Foundation Certificate	Foundation Diploma	Extended Foundation Diploma	Achievement at level 1 reflects the ability to use relevant knowledge, skills and procedures to complete routine tasks. It includes responsibility for completing tasks and procedures subject to direction or guidance.
Entry	Entry Award	Entry Certificate	Entry Diploma	Extended Entry Diploma	Achievement at Entry level reflects progress towards making use of skills, knowledge and understanding (i) that relate to the immediate environment, or (ii) to carry out simple familiar tasks and activities with guidance, or (iii) to carry out structured tasks and activities with guidance.
