# INTRODUCTION

## Description

This unit develops the knowledge and skills which hospital management expect of medical device industry personnel entering, assisting and providing verbal/technical input within clinical areas.

## Assessment Criteria

As a professional qualification there are three key elements to be met:

**Technical Knowledge • Clinical Skill • Reflective Practice**

This unit will be assessed through three different activities:

- Candidates will complete a comprehensive written assessment which will include the Principles of Safe Practice within the relevant clinical areas
- Candidates will complete a multiple-choice questionnaire covering all aspects of the taught Hospital/Theatre Skills unit and its pre-course reading
- Candidates will be expected to demonstrate in person the competencies required to be present in clinical areas.

## Delivery

The programme will be delivered in a virtual classroom setting with formal presentations; problem base learning and clinical sessions; by a qualified faculty with defining knowledge and experience, 360 technology bridges the gap between face-to-face training and online: virtual tour of theatre suite.

## Qualifications

Issued by UK Government Awarding Body; regulated by SQA

Those who have completed our Courses include:

- All specialties of medical practitioners
- Nurses
- Medical Device company representatives
- Pharmaceutical Company Representatives
- Regulatory personnel in companies that manufacture, sell or place medical devices on the market

# COURSE OUTCOMES

## Theatre Access - Professional Qualification

- A National Occupational Standard and National Qualification recognised by UK Regulators, one time qualification
- Accepted and recognised by all credentialing schemes and registers including LSI/MIA and IntelliCentrics
